Scholarship

AUT

2019

Faculty Senior Scholar
Award for Technology

MASSEY HIGH SCHOOL

I have recently completed a Bachelor of Creative Technologies at AUT. During my final year, I rediscovered web development through uni projects and decided to pursue a career in this field. As of April, I have completed my 12-week Full Stack Developer Accelerator at Mission Ready!

I love learning and have had a long-lasting interest in technology and its innovations.

Outside of this I enjoy the gym, exploring new places, foods and experiences, and am an avid visual media fan.

EXPERIENCE

Full Stack Developer Accelerator / Mission Ready

JANUARY 2023 - APRIL 2023

- Worked in collaborative teams
- Weekly team meetings discussing project progress
- Individual full stack programming

Play Distribution / Warehouse Assistant

NOVEMBER 2020 - APRIL 2022

- Worked in a fast-paced teamwork-based environment
- Prepared and reviewed orders for shipping, ensuring order quality and accuracy under time constraints

PROJECTS

LevelUp Works (Mission Ready) / "LevelUp Works provides education technologies to primary and intermediate schools in New Zealand, and is currently in the process of improving its educational technology platform."

- Participated in a simulated organisational environment, performing the role of a software developer. Worked collaboratively in a team to complete the development of an application, according to the technical and functional requirements.

Is this Image an NFT or AI-Generated HUH??? (AUT) / A 'game' where an image is shown and the player must decide if it was created by a human artist or if it has been AI-generated, within 10 seconds.

- As a final year project, I developed a web page game using the rudimentary web dev skills I had at the time, although basic I loved the final product and it was a catalyst in my pursuit of a web development career.
